

Kern Volunteers United

Founders: An Truong, Anwita Chandrasekhar,
Phillip Lin, Shailesh Nagalingam

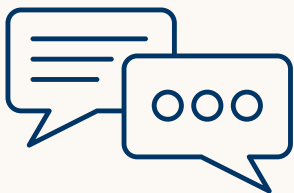

Problem

Oftentimes, nonprofit organizations (NGOs) do not have an efficient avenue to obtain the support of volunteers for their initiatives. NGOs may have to rely on students to reach out to them, which is inefficient.

Our Mission

We want to create a free, accessible virtual platform for NGOs in Kern County to access local high school volunteers, as well as for student volunteer officers and their club members to effectively reach out to NGOs.

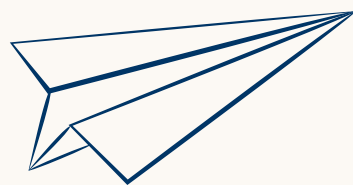

Our Platform

We will be using Discord, a messaging platform, and the Kern Volunteers United (KVU) website to collect and post information about volunteer events. This way, student volunteer officers from high schools throughout Kern County will be able to quickly find and contact NGO coordinators.

Benefits

Through our platform, NGOs will be able to directly access local high school student officers and thus their volunteer organizations in an easy, sustainable method to further their mission.

Our Platform

Our Website

Nonprofit organizations (NGOs) can visit KVVU's website and fill out a quick event form about the volunteering event.

Event Form

The website's event form will collect information about your event:

- Date, time, duration, and location
- Type of event
- Description of the work
- Number of volunteers needed
- Contact information

Event Posted

The NGO events will be posted on the KVVU website. They will also be automatically categorized and posted into specific channels in the KVVU Discord server.

Discord Server

Discord will have specific channels for one-time events, recurring events, and donation drives. Our moderators will provide support to the NGOs and student officers.

Connected

Numerous student officers will have access to event posts, thus increasing the pool of accessible volunteers and resources. After signing up for events, student officers will be able to contact and direct message the NGO.

Success

NGOs will be able to obtain student officers and their volunteer club members for events and donation drives more quickly. Local student volunteer organizations will have access to more NGOs to offer their time and resources for the betterment of our community.
